--	---

Dear Sir/ Madam,

Sub: Commencement of Operations of Waste Heat Recovery based Power Plant.

Ref: Scrip Code: 500339 (BSE) & Scrip Code: RAIN (NSE)

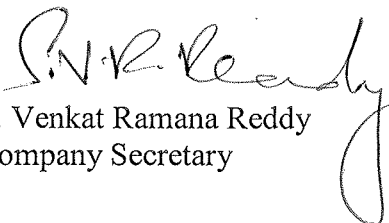

With reference to the above stated subject, we bring to your kind notice that on September 22, 2016, M/s. Rain Cements Limited, a Wholly owned Subsidiary Company has commenced operations of Waste Heat recovery based Power Plant to generate up to 7 MW of gross electrical energy from the waste heat and the flue gases evolved during the Cement manufacturing process at Boincheruvupalli Village, Peapully Mandal, Kurnool District, Andhra Pradesh.

The project was completed at a cost of Rs.70 crores and the same was funded from internal accruals.

The process of waste heat generation is environmental friendly that will bring down the flue gas temperatures. The heat recovery from the flue gases not only saves large quantities of fossil fuels but also substantially reduces the cost of power generation.

This is for your information and record.

Thanking you,  
Yours faithfully,  
for Rain Industries Limited

  
S. Venkat Ramana Reddy  
Company Secretary
