

## **Independent Auditors' Report**

To the Board of Directors of Rain Carbon Inc.

### **Report on the Audit of the Financial Statements**

#### ***Opinion***

We have audited the financial statements of Rain Carbon Inc. ("the Company"), which comprise the statement of financial position as at December 31, 2019, the statements of profit or loss and other comprehensive income, changes in equity and cash flows for the year then ended, and notes, comprising significant accounting policies and other explanatory information.

In our opinion, the accompanying financial statements give a true and fair view of the financial position of the Company as at December 31, 2019, and of its financial performance and its cash flows for the year then ended in accordance with Indian Accounting Standards (Ind AS).

#### ***Basis for Opinion***

We conducted our audit in accordance with International Standards on Auditing (ISAs). Our responsibilities under those standards are further described in the *Auditors' Responsibilities for the Audit of the Financial Statements* section of our report. We are independent of the Company in accordance with the ethical requirements that are relevant to our audit of the financial statements in India, and we have fulfilled our other ethical responsibilities in accordance with these requirements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

#### ***Responsibilities of Management and Those Charged with Governance for the Financial Statements***

Management is responsible for the preparation and fair presentation of the financial statements in accordance with Ind AS, and for such internal control as management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

Those charged with governance are responsible for overseeing the Company's financial reporting process.

***Auditors' Responsibilities for the Audit of the Financial Statements***

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance but is not a guarantee that an audit conducted in accordance with ISAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with ISAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditors' report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditors' report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

Description of the purposes of each reserve within equity:

**Reserves and Surplus:**

(a) **Capital reserve:** It consists of pre-acquisition profits. During the previous year in certain common control transactions, the excess of net assets taken, over the cost of consideration paid were treated as capital reserve in accordance with previous GAAP.

(b) **Retained earnings:** Retained earnings represents the net profits after all distributions and transfers to other reserves.

**Items of Other Comprehensive Income:**

(a) **Foreign currency translation reserve (FCTR):** Represents the FCTR of the foreign subsidiary. For the purpose of Group consolidation, the financial statements are translated at average rate of items in statement of profit and loss and at closing rate of the items in Balance sheet.

**Rain Carbon Inc.****Notes forming part of the Financial Statements****Note 1: Corporate Information**

Rain Carbon Inc. ("RCI") ("the Company") has been incorporated to carry on the businesses of producing calcined petroleum coke (CPC), trading metallic and/or non-metallic substances, and investing in entities engaged in such businesses.

The Company is a wholly owned subsidiary of Rain Commodities (USA) Inc. ("RCUSA"), which in turn is a wholly owned subsidiary of Rain Industries Limited ("RIL" or "the Ultimate Holding Company"), a company incorporated in India and listed on the National Stock Exchange of India Limited and BSE Limited. The Company was originally incorporated as a Limited Liability Company in the State of Delaware, United States of America on September 15, 2010. During the year ended December 31, 2013, the Company has been converted into a Delaware Corporation. Upon completion of conversion process, the authorized share capital of the Company consists of 5,000 shares.

**Note 2: Significant Accounting Policies****a) Basis of preparation of Financial Statements****(i) Statement of Compliance**

The standalone financial statements of the Company have been prepared in accordance with Indian Accounting Standards (Ind AS) as per the Companies (Indian Accounting Standards) Rules, 2015 notified under Section 133 of Companies Act, 2013, (the 'Act') and other relevant provisions of the Act.

The standalone financial statements have been prepared on a going concern basis. Relevant Ind AS effective as on the Company's annual reporting date (December 31, 2019) has been applied. The accounting policies are applied consistently to all the periods presented in the financial statements.

The standalone financial statements were authorised for issue by the Company's Board of Directors on February 28, 2020.

**(ii) Functional and presentation currency**

The Functional currency of the Company is US Dollars (USD). These Standalone financial statements are presented in Indian Rupees (INR). All amounts have been rounded-off to the nearest millions, unless otherwise indicated.

**(iii) Basis of measurement**

The financial statements have been prepared on a historical cost basis, except for the following:

Items	Measurement basis
Derivative financial instruments	Fair value
Certain financial assets and liabilities (refer accounting policy regarding financial instruments)	Fair value
Non-cash distribution liability	Fair value
Net defined benefit asset/liability	Fair value of plan assets less present value of defined benefit plan
Borrowings	Amortised cost using effective interest rate method

**Rain Carbon Inc.****Notes forming part of the Financial Statements (continued)****(iv) Use of estimates**

In preparing these Standalone financial statements, management has made judgements, estimates and assumptions that affect the application of accounting policies and the reported amounts of assets, liabilities, income and expenses. Accounting estimates could change from period to period. Actual results may differ from those estimates. Estimates and underlying assumptions are reviewed on an ongoing basis and appropriate changes are made as management becomes aware of changes in circumstances surrounding the estimates. Revisions to accounting estimates are reflected in the period in which such changes are made and if material, their effects are disclosed in the financial statements.

**Assumptions and estimation uncertainties**

Information about critical judgments in applying accounting policies, as well as estimates and assumptions that have the most significant effect to the carrying amounts of assets and liabilities within the next financial year, are included in the following notes:

- Recognition and measurement of provisions and contingencies: key assumptions about the likelihood and magnitude of an outflow of resources
- Recognition of deferred tax assets: availability of future taxable profit against which tax losses carried forward can be used
- Useful life of property, plant and equipment
- Impairment of financial assets and non-financial assets
- Expected Credit loss - provision for doubtful debts

**Current and Non-current classification**

All the assets and liabilities have been classified as current or non-current as per the Company's normal operating cycle.

**Assets**

An asset is classified as current when it satisfies any of the following criteria:

- i) It is expected to be realised in, or is intended for sale or consumption in, the Company's normal operating cycle
- ii) It is held primarily for the purpose of being traded
- iii) It is expected to be realised within 12 months after the reporting date or
- iv) It is cash or cash equivalent unless it is restricted from being exchanged or used to settle a liability for at least 12 months after the reporting date.

Current assets include the current portion of non-current financial assets. All other assets are classified as non-current.

**Liabilities**

A liability is classified as current when it satisfies any of the following criteria

- i) It is expected to be settled in the Company's normal operating cycle
- ii) It is held primarily for the purpose of being traded
- iii) It is due to be settled within 12 months after the reporting date or

**Rain Carbon Inc.****Notes forming part of the Financial Statements (continued)**

- iv) The Company does not have an unconditional right to defer settlement of the liability for at least 12 months after the reporting date. Terms of a liability that could, at the option of the counterparty, result in its settlement by the issue of equity instruments do not affect its classification.

Current liabilities include current portion of non-current financial liabilities. All other liabilities are classified as non-current.

**Operating cycle**

Operating cycle is the time between the acquisition of assets for processing and their realisation in cash or cash equivalents. The Company's operating cycle is within a period of 12 months.

**b) Financial instruments**

A financial instrument is any contract that gives rise to a financial asset of one entity and a financial liability or equity instrument of another entity.

**Financial Assets****Recognition and initial measurement**

All financial assets are recognised initially at fair value plus, in the case of financial assets not recorded at fair value through profit or loss, transaction costs that are attributable to the acquisition of the financial asset. Purchases or sales of financial assets that require delivery of assets within a time frame established by regulation or convention in the market place (regular way trades) are recognised on the trade date, i.e., the date that the Company commits to purchase or sell the asset.

All financial assets not classified as measured at amortised cost or FVOCI as described above are measured at FVTPL. This includes all derivative financial assets. On initial recognition, the Company may irrevocably designate a financial asset that otherwise meets the requirements to be measured at amortised cost or at FVOCI as at FVTPL if doing so eliminates or significantly reduces an accounting mismatch that would otherwise arise.

**c) Revenue recognition**

Ind AS 115 was issued on March 28, 2018 by Ministry of Corporate affairs and supersedes Ind AS 11 Construction Contracts and Ind AS 18 Revenue and it applies, with limited exceptions, to all revenue arising from contracts with its customers. Ind AS 115 establishes a five-step model to account for revenue arising from contracts with customers and requires that revenue be recognised at an amount that reflects the consideration to which an entity expects to be entitled in exchange for transferring goods or services to a customer.

The Company applied the modified retrospective method upon adoption of Ind AS 115 on January 1, 2019. This method requires the recognition of the cumulative effect of initially applying Ind AS 115 to retained earnings and not to restate prior years.

Overall, the application of this standard did not have a material impact on the Company's revenue streams from the sale of goods.

**Rain Carbon Inc.****Notes forming part of the Financial Statements (continued)**

Revenue from contracts with customers is recognised when control of the goods or services are transferred to the customer at an amount that reflects the consideration to which the Company expects to be entitled in exchange for those goods or services. The Company has generally concluded that it is the principal in its revenue arrangements, because it typically controls the goods or services before transferring them to the customer.

Revenue from sale of goods and services are recognised at the point in time when control of the goods is transferred to the customer. The revenue is measured on the basis of the consideration defined in the contract with a customer, including variable consideration, such as discounts, volume rebates, or other contractual reductions.

Revenue from services rendered is recognised when the related services are performed in accordance with contract terms.

**d) Other income**

Interest income or expense is recognised using the effective interest method on time proportion method.

Dividend income is recognised when the Company's right to receive dividend is established, which is generally when shareholders approve the dividend.

**e) Property, plant and equipment**

Property, plant and equipment are stated at cost/professional valuation less accumulated depreciation. Cost includes directly attributable to the acquisition of the items including its purchase price, import duties and non-refundable purchase taxes, after deducting trade discounts and rebates, any directly attributable cost of bringing the item to its working condition for its intended use and estimated costs of dismantling and removing the item and restoring the site on which it is located. Subsequent expenditure related to an item of tangible fixed asset is capitalised only if it increases the future benefits from the existing assets beyond its previously assessed standards of performance.

If significant parts of an item of property, plant and equipment have different useful lives, then they are accounted for as separate items (major components) of property, plant and equipment. Any gain or loss on disposal of an item of property, plant and equipment is recognised in profit or loss.

Advances paid towards acquisition of tangible fixed assets outstanding at each balance sheet date are shown under long-term loans and advances as capital advances.

Depreciation on all the tangible fixed assets is provided using the straight-line method based on the useful life of the assets as prescribed by Schedule II to the Companies Act, 2013.

Depreciation is calculated on a pro-rata basis from the date of installation till the date the assets are sold or disposed.

Gains and losses on disposal of tangible assets are determined as the difference between net sales proceeds and the carrying amount, and are presented in the Statement of Standalone Profit and Loss

The residual values, useful lives and methods of depreciation of property, plant and equipment are reviewed at each financial year end and adjusted prospectively, if appropriate.

**Rain Carbon Inc.****Notes forming part of the Financial Statements (continued)****f) Foreign Currency Transactions and Balances**

Transactions in foreign currency are recorded at the exchange rates prevailing on the date of the transactions. Monetary assets and liabilities denominated in foreign currency are restated at the prevailing year end rates. The resultant gain/loss upon such restatement along with the gain/loss on account of foreign currency transactions are accounted in the Statement of Profit and Loss. In respect of items covered by forward exchange contracts, the premium or discount arising at the inception of such a forward exchange contract is amortised as expense or income over the life of the contract. Any profit or loss arising on cancellation or renewal of such a forward contract is recognised in the Statement of Profit and Loss.

**g) Investments**

Non-current investments in subsidiaries are carried at cost less provision for diminution, other than temporary, if any, in the value of such investments.

**h) Tax expense**

Current tax is determined based on the amount of tax payable in respect of taxable income for the year. Deferred tax is recognised on timing differences being the difference between the taxable income and accounting income that originate in one period and are capable of reversal in one or more subsequent periods subject to consideration of prudence. Deferred tax assets on unabsorbed depreciation and carry forward of losses are not recognised unless there is a virtual certainty that there will be sufficient future taxable income available to realise such assets. Deferred tax assets and liabilities have been measured using the tax rates and tax laws that have been enacted or substantially enacted by the Balance Sheet date.

**i) Provisions and contingencies**

A provision is recognised when the Company has a present obligation as a result of past events and it is probable that an outflow of resources will be required to settle the obligation in respect of which a reliable estimate can be made. Provisions are measured at the present value of management's best estimate of the expenditure required to settle the present obligation at the end of the reporting period. These are reviewed at each Balance Sheet date and adjusted to reflect the current best estimates. If the effect of the time value of money is material, provisions are discounted using a current pre-tax rate that reflects, when appropriate, the risks specific to the liability. When discounting is used, the increase in the provision due to the passage of time is recognised as a finance cost.

**j) Dividend declared**

The Company recognises a liability to make cash distributions to equity holders of the parent when the distribution is authorised and the distribution is no longer at the discretion of the Company.

### **Independent Auditors' Report**

To the Board of Directors of Rain Commodities (USA) Inc.

#### **Report on the Audit of the Financial Statements**

##### ***Opinion***

We have audited the financial statements of Rain Commodities (USA) Inc. ("the Company"), which comprise the statement of financial position as at December 31, 2019, the statements of profit or loss and other comprehensive income, changes in equity and cash flows for the year then ended, and notes, comprising significant accounting policies and other explanatory information.

In our opinion, the accompanying financial statements give a true and fair view of the financial position of the Company as at December 31, 2019, and of its financial performance and its cash flows for the year then ended in accordance with Indian Accounting Standards (Ind AS).

##### ***Basis for Opinion***

We conducted our audit in accordance with International Standards on Auditing (ISAs). Our responsibilities under those standards are further described in the *Auditors' Responsibilities for the Audit of the Financial Statements* section of our report. We are independent of the Company in accordance with the ethical requirements that are relevant to our audit of the financial statements in India, and we have fulfilled our other ethical responsibilities in accordance with these requirements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

##### ***Responsibilities of Management and Those Charged with Governance for the Financial Statements***

Management is responsible for the preparation and fair presentation of the financial statements in accordance with Ind AS, and for such internal control as management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

Those charged with governance are responsible for overseeing the Company's financial reporting process.

***Auditors' Responsibilities for the Audit of the Financial Statements***

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance but is not a guarantee that an audit conducted in accordance with ISAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with ISAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditors' report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditors' report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

**Rain Commodities (USA) Inc.**  
**Notes forming part of the Financial Statements**

**Note 1: Corporate Information**

Rain Commodities (USA) Inc. ("RCUSA") ("the Company") has been incorporated to carry on the businesses of producing calcined petroleum coke (CPC), trading metallic and/or non-metallic substances, investing in entities engaged in such businesses and to provide freight forwarding services.

The Company is a wholly owned subsidiary of Rain Industries Limited ("RIL" or "the Holding Company"), a company incorporated in India and listed on the National Stock Exchange of India Limited and Bombay Stock Exchange of India Limited. The Company was incorporated in the State of Delaware, United States of America on November 2, 2005.

**Note 2: Significant Accounting Policies**

**a) Basis of preparation of Financial Statements**

**(i) Statement of Compliance**

The standalone financial statements of the Company have been prepared in accordance with Indian Accounting Standards (Ind AS) as per the Companies (Indian Accounting Standards) Rules, 2015 notified under Section 133 of Companies Act, 2013, (the 'Act') and other relevant provisions of the Act.

The standalone financial statements have been prepared on a going concern basis. Relevant Ind AS effective as on the Company's annual reporting date (December 31, 2019) have been applied. The accounting policies are applied consistently to all the periods presented in the financial statements.

The standalone financial statements were authorised for issue by the Company's Board of Directors on February 28, 2020.

**(ii) Functional and presentation currency**

The Functional currency of the Company is US Dollars (USD). These Standalone financial statements are presented in Indian Rupees (INR). All amounts have been rounded-off to the nearest millions, unless otherwise indicated.

**(iii) Basis of measurement**

The financial statements have been prepared on a historical cost basis, except for the following:

<b>Items</b>	<b>Measurement basis</b>
Derivative financial instruments	Fair value
Certain financial assets and liabilities (refer accounting policy regarding financial instruments)	Fair value
Non-cash distribution liability	Fair value
Net defined benefit asset/liability	Fair value of plan assets less present value of defined benefit plan
Borrowings	Amortised cost using effective interest rate method

**Rain Commodities (USA) Inc.**  
**Notes forming part of the Financial Statements (continued)**

**(iv) Use of estimates**

In preparing these Standalone financial statements, management has made judgements, estimates and assumptions that affect the application of accounting policies and the reported amounts of assets, liabilities, income and expenses. Accounting estimates could change from period to period. Actual results may differ from those estimates. Estimates and underlying assumptions are reviewed on an ongoing basis and appropriate changes are made as management becomes aware of changes in circumstances surrounding the estimates. Revisions to accounting estimates are reflected in the period in which such changes are made and if material, their effects are disclosed in the financial statements.

**Assumptions and estimation uncertainties**

Information about critical judgments in applying accounting policies, as well as estimates and assumptions that have the most significant effect to the carrying amounts of assets and liabilities within the next financial year, are included in the following notes:

- Recognition and measurement of provisions and contingencies: key assumptions about the likelihood and magnitude of an outflow of resources
- Recognition of deferred tax assets: availability of future taxable profit against which tax losses carried forward can be used
- Useful life of property, plant and equipment
- Impairment of financial assets and non-financial assets
- Expected Credit loss - provision for doubtful debts

**Current and Non-current classification**

All the assets and liabilities have been classified as current or non-current as per the Company's normal operating cycle.

**Assets**

An asset is classified as current when it satisfies any of the following criteria:

- i) It is expected to be realised in, or is intended for sale or consumption in, the Company's normal operating cycle
- ii) It is held primarily for the purpose of being traded
- iii) It is expected to be realised within 12 months after the reporting date or
- iv) It is cash or cash equivalent unless it is restricted from being exchanged or used to settle a liability for at least 12 months after the reporting date.

Current assets include the current portion of non-current financial assets. All other assets are classified as non-current.

**Liabilities**

A liability is classified as current when it satisfies any of the following criteria

- i) It is expected to be settled in the Company's normal operating cycle
- ii) It is held primarily for the purpose of being traded
- iii) It is due to be settled within 12 months after the reporting date or

**Rain Commodities (USA) Inc.****Notes forming part of the Financial Statements (continued)**

- iv) The Company does not have an unconditional right to defer settlement of the liability for at least 12 months after the reporting date. Terms of a liability that could, at the option of the counterparty, result in its settlement by the issue of equity instruments do not affect its classification.

Current liabilities include current portion of non-current financial liabilities. All other liabilities are classified as non-current.

**Operating cycle**

Operating cycle is the time between the acquisition of assets for processing and their realisation in cash or cash equivalents. The Company's operating cycle is within a period of 12 months.

**b) Financial instruments**

A financial instrument is any contract that gives rise to a financial asset of one entity and a financial liability or equity instrument of another entity.

**Financial Assets****Recognition and initial measurement**

All financial assets are recognised initially at fair value plus, in the case of financial assets not recorded at fair value through profit or loss, transaction costs that are attributable to the acquisition of the financial asset. Purchases or sales of financial assets that require delivery of assets within a time frame established by regulation or convention in the market place (regular way trades) are recognised on the trade date, i.e., the date that the Company commits to purchase or sell the asset.

All financial assets not classified as measured at amortised cost or FVOCI as described above are measured at FVTPL. This includes all derivative financial assets. On initial recognition, the Company may irrevocably designate a financial asset that otherwise meets the requirements to be measured at amortised cost or at FVOCI as at FVTPL if doing so eliminates or significantly reduces an accounting mismatch that would otherwise arise.

**c) Revenue recognition**

Ind AS 115 was issued on March 28, 2018 by Ministry of Corporate affairs and supersedes Ind AS 11 Construction Contracts and Ind AS 18 Revenue and it applies, with limited exceptions, to all revenue arising from contracts with its customers. Ind AS 115 establishes a five-step model to account for revenue arising from contracts with customers and requires that revenue be recognised at an amount that reflects the consideration to which an entity expects to be entitled in exchange for transferring goods or services to a customer.

The Company applied the modified retrospective method upon adoption of Ind AS 115 on January 1, 2019. This method requires the recognition of the cumulative effect of initially applying Ind AS 115 to retained earnings and not to restate prior years.

Overall, the application of this standard did not have a material impact on the Company's revenue streams from the sale of goods.

**Rain Commodities (USA) Inc.****Notes forming part of the Financial Statements (continued)**

Revenue from contracts with customers is recognised when control of the goods or services are transferred to the customer at an amount that reflects the consideration to which the Company expects to be entitled in exchange for those goods or services. The Company has generally concluded that it is the principal in its revenue arrangements, because it typically controls the goods or services before transferring them to the customer.

Revenue from sale of goods and services are recognised at the point in time when control of the goods is transferred to the customer. The revenue is measured on the basis of the consideration defined in the contract with a customer, including variable consideration, such as discounts, volume rebates, or other contractual reductions.

Revenue from services rendered is recognised when the related services are performed in accordance with contract terms.

**d) Other income**

Interest income or expense is recognised using the effective interest method on time proportion method.

Dividend income is recognised when the Company's right to receive dividend is established, which is generally when shareholders approve the dividend.

**e) Property, plant and equipment**

Property, plant and equipment are stated at cost/professional valuation less accumulated depreciation. Cost includes directly attributable to the acquisition of the items including its purchase price, import duties and non-refundable purchase taxes, after deducting trade discounts and rebates, any directly attributable cost of bringing the item to its working condition for its intended use and estimated costs of dismantling and removing the item and restoring the site on which it is located. Subsequent expenditure related to an item of tangible fixed asset is capitalised only if it increases the future benefits from the existing assets beyond its previously assessed standards of performance.

If significant parts of an item of property, plant and equipment have different useful lives, then they are accounted for as separate items (major components) of property, plant and equipment. Any gain or loss on disposal of an item of property, plant and equipment is recognised in profit or loss.

Advances paid towards acquisition of tangible fixed assets outstanding at each balance sheet date are shown under long-term loans and advances as capital advances.

Depreciation on all the tangible fixed assets is provided using the straight-line method based on the useful life of the assets as prescribed by Schedule II to the Companies Act, 2013.

Depreciation is calculated on a pro-rata basis from the date of installation till the date the assets are sold or disposed.

Gains and losses on disposal of tangible assets are determined as the difference between net sales proceeds and the carrying amount, and are presented in the Statement of Standalone Profit and Loss

Items	Years
Buildings	15
Furniture and Fixtures	10

**Rain Commodities (USA) Inc.****Notes forming part of the Financial Statements (continued)**

The residual values, useful lives and methods of depreciation of property, plant and equipment are reviewed at each financial year end and adjusted prospectively, if appropriate.

**f) Foreign Currency Transactions and Balances**

Transactions in foreign currency are recorded at the exchange rates prevailing on the date of the transactions. Monetary assets and liabilities denominated in foreign currency are restated at the prevailing year end rates. The resultant gain/loss upon such restatement along with the gain/loss on account of foreign currency transactions are accounted in the Statement of Profit and Loss. In respect of items covered by forward exchange contracts, the premium or discount arising at the inception of such a forward exchange contract is amortised as expense or income over the life of the contract. Any profit or loss arising on cancellation or renewal of such a forward contract is recognised in the Statement of Profit and Loss.

**g) Investments**

Non-current investments in subsidiaries are carried at cost less provision for diminution, other than temporary, if any, in the value of such investments.

**h) Tax expense**

Current tax is determined based on the amount of tax payable in respect of taxable income for the year. Deferred tax is recognised on timing differences being the difference between the taxable income and accounting income that originate in one period and are capable of reversal in one or more subsequent periods subject to consideration of prudence. Deferred tax assets on unabsorbed depreciation and carry forward of losses are not recognised unless there is a virtual certainty that there will be sufficient future taxable income available to realise such assets. Deferred tax assets and liabilities have been measured using the tax rates and tax laws that have been enacted or substantially enacted by the Balance Sheet date.

**i) Provisions and contingencies**

A provision is recognised when the Company has a present obligation as a result of past events and it is probable that an outflow of resources will be required to settle the obligation in respect of which a reliable estimate can be made. Provisions are measured at the present value of management's best estimate of the expenditure required to settle the present obligation at the end of the reporting period. These are reviewed at each Balance Sheet date and adjusted to reflect the current best estimates. If the effect of the time value of money is material, provisions are discounted using a current pre-tax rate that reflects, when appropriate, the risks specific to the liability. When discounting is used, the increase in the provision due to the passage of time is recognised as a finance cost.

**j) Dividend declared**

The Company recognises a liability to make cash distributions to equity holders of the parent when the distribution is authorised and the distribution is no longer at the discretion of the Company.

## INDEPENDENT AUDITORS' REPORT

To the Members of Rain Cements Limited

Report on the Audit of the Ind AS Financial Statements

### Opinion

We have audited the financial statements of Rain Cements Limited ("the Company"), which comprise the balance sheet as at December 31, 2019, and the statement of profit and loss (including other comprehensive income), statement of changes in equity and statement of cash flows for the year then ended, and notes to the financial statements, including a summary of the significant accounting policies and other explanatory information.

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid standalone financial statements give the information required by the Companies Act, 2013 ("Act") in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India, of the state of affairs of the Company as at December 31, 2019, and profit and other comprehensive income, changes in equity and its cash flows for the year ended on that date.

### Basis for Opinion

We conducted our audit in accordance with the Standards on Auditing (SAs) specified under section 143(10) of the Act. Our responsibilities under those SAs are further described in the *Auditor's Responsibilities for the Audit of the Financial Statements* section of our report. We are independent of the Company in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India together with the ethical requirements that are relevant to our audit of the standalone financial statements under the provisions of the Act and the Rules thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

### Other Information

The Company's management and Board of Directors are responsible for the other information. The other information comprises the information included in the Company's annual report, but does not include the financial statements and our auditors' report thereon.

Our opinion on the financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

### **Management's Responsibility for the Standalone Financial Statements**

The Company's management and Board of Directors are responsible for the matters stated in section 134(5) of the Act with respect to the preparation of these standalone financial statements that give a true and fair view of the state of affairs, profit/loss and other comprehensive income, changes in equity and cash flows of the Company in accordance with the accounting principles generally accepted in India, including the Indian Accounting Standards (Ind AS) specified under section 133 of the Act. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding of the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the standalone financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management and Board of Directors are responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

Board of Directors is also responsible for overseeing the Company's financial reporting process.

### **Auditor's Responsibilities for the Audit of the Financial Statements**

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3)(i) of the Act, we are also responsible for expressing our opinion on whether the company has adequate internal financial controls with reference to financial statements in place and the operating effectiveness of such controls.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a

### **Auditor's Responsibilities for the Audit of the Standalone Financial Statements (continued)**

material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the standalone financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.

- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

### **Report on Other Legal and Regulatory Requirements**

1. As required by the Companies (Auditors' Report) Order, 2016 ("the Order") issued by the Central Government in terms of section 143 (11) of the Act, we give in the "Annexure A" a statement on the matters specified in paragraphs 3 and 4 of the Order, to the extent applicable.

(A) As required by Section 143(3) of the Act, we report that:

- a) We have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purposes of our audit.
- b) In our opinion, proper books of account as required by law have been kept by the Company so far as it appears from our examination of those books.
- c) The balance sheet, the statement of profit and loss (including other comprehensive income), the statement of changes in equity and the statement of cash flows dealt with by this Report are in agreement with the books of account.
- d) In our opinion, the aforesaid financial statements comply with the Ind AS specified under section 133 of the Act.
- e) On the basis of the written representations received from the directors as on December 31, 2019 taken on record by the Board of Directors, none of the directors is disqualified as on December 31, 2019 from being appointed as a director in terms of Section 164(2) of the Act.
- f) With respect to the adequacy of the internal financial controls with reference to financial statements of the Company and the operating effectiveness of such controls, refer to our separate Report in "Annexure B".

**Report on Other Legal and Regulatory Requirements (continued)**

(B) With respect to the other matters to be included in the Auditors' Report in accordance with Rule 11 of the Companies (Audit and Auditors) Rules, 2014, in our opinion and to the best of our information and according to the explanations given to us:

- i. The Company has disclosed the impact of pending litigations as at December 31, 2019 on its financial position in its financial statements - Refer Note 36 to the financial statements;
- ii. The Company did not have any long-term contracts including derivative contracts for which there were any material foreseeable losses.
- iii. There were no amounts which were required to be transferred to the Investor Education and Protection Fund by the Company.

(C) With respect to the matter to be included in the Auditors' Report under section 197(16):

In our opinion and according to the information and explanations given to us, the remuneration paid by the company to its directors during the current year is in accordance with the provisions of Section 197 of the Act. The remuneration paid to any director is not in excess of the limit laid down under Section 197 of the Act. The Ministry of Corporate Affairs has not prescribed other details under Section 197(16) which are required to be commented upon by us.

**Rain Cements Limited**

**Annexure A to the Independent Auditor's Report on the Ind AS Financial Statements**

With reference to the Annexure A referred to in our report of even date to the Members of Rain Cements Limited ("the Company") on the Ind AS financial statements as at and for the year ended December 31, 2019, we report that:

- (i) (a) The Company has maintained proper records showing full particulars, including quantitative details and situation of fixed assets.
- (b) The Company has a regular program of physical verification of its fixed assets by which all fixed assets are verified in a phased manner over a period of three year. In accordance with this program, certain fixed assets were verified during the year and no material discrepancies were noted on such verification. In our opinion, the periodicity of physical verification is reasonable having regard to the size of the Company and the nature of its assets.
- (c) According to the information and explanations give to us and records examined by us and based on the confirmation obtained regarding property mortgaged as security we report that, the title deeds of immovable properties as disclosed in the Note 3 to the Ind AS Financial Statements, are held in the name of the Company.
- (ii) The inventory, except goods-in-transit and stocks lying with third parties, has been physically verified by the management during the year. In our opinion, the frequency of such verification is reasonable. The discrepancies noticed on verification between the physical stocks and the book records were not material. For stocks lying with third parties at the year-end, written confirmations have been obtained.
- (iii) According to the information and explanations given to us, the Company has not granted any loans, secured or unsecured, to companies, firms, limited liability partnerships or other parties covered in the register maintained under Section 189 of the Companies Act, 2013 ('the Act'). Accordingly, paragraph 3(iii) of the Order is not applicable to the Company.
- (iv) In our opinion and according to the information and explanations given to us, the Company has complied with the provisions of Section 185 and 186 of the Act in respect of the loans and guarantees given. Further, there are no investments made and security given in respect of which provisions of section 185 and 186 of the Act are applicable.
- (v) The Company has not accepted any deposits from the public within the meaning of Section 73, 74, 75 and 76 of the Act and the rules framed there under to the extent notified. Accordingly, paragraph 3(v) of the order is not applicable to the company.
- (vi) We have broadly reviewed the books of account maintained by the Company pursuant to the rules prescribed by the Central Government of India for maintenance of cost records under sub-section (1) of Section 148 of the Act and are of the opinion that prima facie, the prescribed accounts and records have been made and maintained. However, we have not made a detailed examination of the records.
- (vii) (a) According to the information and explanations given to us and on the basis of our examination of the records of the Company, amounts deducted/ accrued in the books of account in respect of undisputed statutory dues including Provident fund, Employees' state insurance, Income- tax, Duty of Customs, Goods and Service Tax, cess and any other material statutory dues have generally been regularly deposited during the year by the Company with the appropriate authorities.

**Rain Cements Limited****Annexure A to the Independent Auditor's Report on the Ind AS Financial Statements**

According to the information and explanations given to us, there are no undisputed amounts payable in respect of Provident fund, Employees' state insurance, Income- tax, Duty of Customs, Goods and Service Tax, Cess and any other material statutory dues that were in arrears as at December 31, 2019 for a period of more than six months from the date they became payable.

- (b) According to the information and explanations given to us, there are no dues of Provident fund, Employees' state insurance, Income- tax, Duty of Customs, Goods and Service Tax, Cess which have not been deposited with appropriate authorities on account of any disputes. However, the Company has the following disputed dues with respect to Income tax, Sales tax, Service tax, Duty of Customs, and Duty of Excise and Value added tax:

**Annexure B to the Independent Auditors' report on the financial statements of Rain Cements Limited for the period ended December 31, 2019**

**Report on the internal financial controls with reference to the aforesaid financial statements under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013**

**(Referred to in paragraph 1(A)(f) under 'Report on Other Legal and Regulatory Requirements' section of our report of even date)**

**Opinion**

We have audited the internal financial controls with reference to financial statements of Rain Cements Limited ("the Company") as of December 31, 2019 in conjunction with our audit of the financial statements of the Company for the year ended on that date.

In our opinion, the Company has, in all material respects, adequate internal financial controls with reference to financial statements and such internal financial controls were operating effectively as at December 31, 2019, based on the internal financial controls with reference to financial statements criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India (the "Guidance Note").

**Management's Responsibility for Internal Financial Controls**

The Company's management and the Board of Directors are responsible for establishing and maintaining internal financial controls based on the internal financial controls with reference to financial statements criteria established by the Company considering the essential components of internal control stated in the Guidance Note. These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013 (hereinafter referred to as "the Act").

**Auditors' Responsibility**

Our responsibility is to express an opinion on the Company's internal financial controls with reference to financial statements based on our audit. We conducted our audit in accordance with the Guidance Note and the Standards on Auditing, prescribed under section 143(10) of the Act, to the extent applicable to an audit of internal financial controls with reference to financial statements. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls with reference to financial statements were established and maintained and whether such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls with reference to financial statements and their operating effectiveness. Our audit of internal financial controls with reference to financial statements included obtaining an understanding of such internal financial controls, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls with reference to financial statements.

**Meaning of Internal Financial controls with Reference to Financial Statements**

A company's internal financial controls with reference to financial statements is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial controls with reference to financial statements include those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

**Inherent Limitations of Internal Financial controls with Reference to Financial Statements**

Because of the inherent limitations of internal financial controls with reference to financial statements, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls with reference to financial statements to future periods are subject to the risk that the internal financial controls with reference to financial statements may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

**Note 1: Corporate Information**

Rain Cements Limited ('the Company') was originally incorporated on 4 May, 1999 and is domiciled in India. The Company is engaged in the business of manufacture and sale of cement. Company's production facilities are located at Nalgonda district in the State of Telangana, Kurnool district in the State of Andhra Pradesh and Packing facility at Bellary district of Karnataka State.

Rain Cements Limited is a wholly owned Subsidiary of Rain Industries Limited.

**Note 2: Significant Accounting Policies**

**a) Basis of preparation of financial statements**

**(i) Statement of compliance**

The financial statements of the Company have been prepared in accordance with Indian Accounting Standards (Ind AS) as per the Companies (Indian Accounting Standards) Rules, 2015 as amended from time to time, notified under Section 133 of Companies Act, 2013, (the 'Act') and other relevant provisions of the Act.

The financial statements have been prepared on a going concern basis. Relevant Ind AS effective as on the Company's annual reporting date 31 December 2019 have been applied. The accounting policies are applied consistently to all the periods presented in the financial statements.

The financial statements were authorized for issue by the Company's Board of Directors on February 24, 2020.

**(ii) Functional and presentation currency**

These financial statements are presented in Indian Rupees (INR), which is also the Company's functional currency. All amounts have been rounded-off to the nearest millions, unless otherwise indicated.

**(iii) Basis of measurement**

The financial statements have been prepared on a historical cost basis, except for the following assets and liabilities which have been measured at fair value:

- Derivative financial instruments,
- Certain financial assets and liabilities measured at fair value (refer accounting policy regarding financial instruments) and
- Non-cash distribution liability.

**(iv) Use of estimates and judgements**

In preparing these financial statements, management has made judgements, estimates and assumptions that affect the application of accounting policies and the reported amounts of assets, liabilities, income and expenses. Accounting estimates could change from period to period. Actual results may differ from these estimates. Estimates and underlying assumptions are reviewed on an ongoing basis and appropriate changes are made as management becomes aware of changes in circumstances surrounding the estimates. Revisions to accounting estimates are reflected in the period in which such changes are made and if material, their effects are disclosed in the financial statements.

**Assumptions and estimation uncertainties**

Information about critical judgments in applying accounting policies, as well as estimates and assumptions that have the most significant effect to the carrying amounts of assets and liabilities within the next financial year, are included in the following notes:

- a) measurement of defined benefit obligations: key actuarial assumptions (Refer Note 41)
- b) recognition and measurement of provisions and contingencies: key assumptions about the likelihood and magnitude of an outflow of resources (Refer Note 36)
- c) useful life of property, plant and equipment and intangible assets (Refer Note 2(f))
- d) impairment of financial assets and non-financial assets (Refer Note 44 and 45)
- e) decommissioning liability (Refer Note 2(f))
- f) expected Credit loss - provision for doubtful debts (Refer Note 45)

**Note 2: Significant Accounting Policies (continued)**

- a) Basis of preparation of financial statements (continued)**
- (v) Current and non current classification**

All the assets and liabilities have been classified as current or non current as per the Company's normal operating cycle.

**Assets**

An asset is classified as current when it satisfies any of the following criteria:

- i. It is expected to be realised in, or is intended for sale or consumption in, the Company's normal operating cycle;
- ii. It is held primarily for the purpose of being traded;
- iii. It is expected to be realised within 12 months after the reporting date; or
- iv. It is cash or cash equivalent unless it is restricted from being exchanged or used to settle a liability for at least 12 months after the reporting date.

Current assets include the current portion of non-current financial assets. All other assets are classified as non-current.

**Liabilities**

A liability is classified as current when it satisfies any of the following criteria:

- i. It is expected to be settled in the Company's normal operating cycle;
- ii. It is held primarily for the purpose of being traded;
- iii. It is due to be settled within 12 months after the reporting date; or
- iv. The Company does not have an unconditional right to defer settlement of the liability for at least 12 months after the reporting date. Terms of a liability that could, at the option of the counterparty, result in its settlement by the issue of equity instruments do not affect its classification.

Current liabilities include current portion of non-current financial liabilities. All other liabilities are classified as non-current.

**Operating cycle**

Operating cycle is the time between the acquisition of assets for processing and their realisation in cash or cash equivalents. The Company's operating cycle is within a period of 12 months.

**(vi) Measurement of Fair values:**

Accounting policies and disclosures require measurement of fair value for both financial and non-financial assets. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value measurement is based on the presumption that the transaction to sell the asset or transfer the liability takes place either:

- In the principal market for the asset or liability, or
- In the absence of a principal market, in the most advantageous market for the asset or liability

The principal or the most advantageous market must be accessible by the Company. The fair value of an asset or a liability is measured using the assumptions that market participants would use when pricing the asset or liability, assuming that market participants act in their economic best interest.

The Company uses valuation techniques that are appropriate in the circumstances and for which sufficient data are available to measure fair value, maximising the use of relevant observable inputs and minimising the use of unobservable inputs.

The Company engages with external valuers for measurement of fair values in the absence of quoted prices in active markets.

All assets and liabilities for which fair value is measured or disclosed in the financial statements are categorised within the fair value hierarchy, described as follows, based on the lowest level input that is significant to the fair value measurement as a whole:

- Level 1 — Quoted (unadjusted) market prices in active markets for identical assets or liabilities
- Level 2 — Valuation techniques for which the lowest level input that is significant to the fair value measurement is directly or indirectly observable
- Level 3 — Valuation techniques for which the lowest level input that is significant to the fair value measurement is unobservable

For changes that have occurred between levels in the hierarchy during the period the Company re-assesses categorisation (based on the lowest level input that is significant to the fair value measurement as a whole) at the end of each reporting period.

69

**Note 2: Significant Accounting Policies (continued)**

**(b) Business combination**

Business combinations are accounted for using the acquisition method. The cost of an acquisition is measured as the aggregate of the consideration transferred measured at acquisition date fair value and the amount of any noncontrolling interests in the acquiree. For each business combination, the Company elects whether to measure the noncontrolling interests in the acquiree at fair value or at the proportionate share of the acquiree's identifiable net assets. Acquisition-related costs are expensed as incurred. At the acquisition date, the identifiable assets acquired and the liabilities assumed are recognised at their acquisition date fair values. For this purpose, the liabilities assumed include contingent liabilities representing present obligation and they are measured at their acquisition fair values irrespective of the fact that outflow of resources embodying economic benefits is not probable. However, the following assets and liabilities acquired in a business combination are measured at the basis indicated below:

- Deferred tax assets or liabilities, and the assets or liabilities related to employee benefit arrangements are recognised and measured in accordance with Ind AS 12 Income Tax and Ind AS 19 Employee Benefits respectively.
- Assets (or disposal Companies) that are classified as held for sale in accordance with Ind AS 105 Non-current Assets Held for Sale and Discontinued Operations are measured in accordance with that standard.
- Reacquired rights are measured at a value determined on the basis of the remaining contractual term of the related contract. Such valuation does not consider potential renewal of the reacquired right.

When the Company acquires a business, it assesses the financial assets and liabilities assumed for appropriate classification and designation in accordance with the contractual terms, economic circumstances and pertinent conditions as at the acquisition date. This includes the separation of embedded derivatives in host contracts by the acquiree. If the business combination is achieved in stages, any previously held equity interest is re-measured at its acquisition date fair value and any resulting gain or loss is recognised in profit or loss or OCI, as appropriate.

Any contingent consideration to be transferred by the acquirer is recognised at fair value at the acquisition date. Contingent consideration classified as an asset or liability that is a financial instrument and within the scope of Ind AS 109 Financial Instruments, is measured at fair value with changes in fair value recognised in profit or loss. If the contingent consideration is not within the scope of Ind AS 109, it is measured in accordance with the appropriate Ind AS. Contingent consideration that is classified as equity is not re-measured at subsequent reporting dates and subsequent to its settlement is accounted for within equity.

**(c) Financial instruments**

A financial instrument is any contract that gives rise to a financial asset of one entity and a financial liability or equity instrument of another entity.

**Financial Assets:**

**Initial recognition and measurement**

All financial assets are recognised initially at fair value plus, in the case of financial assets not recorded at fair value through profit or loss, transaction costs that are attributable to the acquisition of the financial asset. Purchases or sales of financial assets that require delivery of assets within a time frame established by regulation or convention in the market place (regular way trades) are recognised on the trade date, i.e., the date that the Company commits to purchase or sell the asset.

All financial assets not classified as measured at amortised cost or Fair Value through Other Comprehensive Income (FVOCI) as described above are measured at Fair value through Profit and Loss (FVTPL). This includes all derivative financial assets. On initial recognition, the company may irrevocably designate a financial asset that otherwise meets the requirements to be measured at amortised cost or at FVOCI as at FVTPL if doing so eliminates or significantly reduces an accounting mismatch that would otherwise arise.

**Financial assets: Business model assessment**

The Company makes an assessment of the objective of the business model in which a financial asset is held at an individual asset level because this best reflects the way the business is managed and information is provided to management. The information considered includes:

- the stated policies and objectives for the portfolio and the operation of those policies in practice. These include whether management's strategy focuses on earning contractual interest income, maintaining a particular interest rate profile, matching the duration of the financial assets to the duration of any related liabilities or expected cash outflows or realising cash flows through the sale of the assets;
- how the performance of the portfolio is evaluated and reported to the Company's management;
- the risks that affect the performance of the business model (and the financial assets held within that business model) and how those risks are managed;
- how managers of the business are compensated – e.g. whether compensation is based on the fair value of the assets managed or the contractual cash flows collected; and
- the frequency, volume and timing of sales of financial assets in prior periods, the reasons for such sales and expectations about future sales activity.

Financial assets that are held for trading or are managed and whose performance is evaluated on a fair value basis are measured at FVTPL.

**Note 2: Significant Accounting Policies (continued)**

**(c) Financial instruments (continued)**

**Financial assets: Assessment whether contractual cash flows are solely payments of principal and interest**

For the purposes of this assessment, 'principal' is defined as the fair value of the financial asset on initial recognition. 'Interest' is defined as consideration for the time value of money and for the credit risk associated with the principal amount outstanding during a particular period of time and for other basic lending risks and costs (e.g. liquidity risk and administrative costs), as well as a profit margin.

In assessing whether the contractual cash flows are solely payments of principal and interest, the Company considers the contractual terms of the instrument. This includes assessing whether the financial asset contains a contractual term that could change the timing or amount of contractual cash flows such that it would not meet this condition. In making this assessment, the Company considers:

- contingent events that would change the amount or timing of cash flows;
- terms that may adjust the contractual coupon rate, including variable interest rate features;
- prepayment and extension features; and
- terms that limit the Company's claim to cash flows from specified assets (e.g. non recourse features).

A prepayment feature is consistent with the solely payments of principal and interest criterion if the prepayment amount substantially represents unpaid amounts of principal and interest on the principal amount outstanding, which may include reasonable additional compensation for early termination of the contract. Additionally, for a financial asset acquired at a significant discount or premium to its contractual par amount, a feature that permits or requires prepayment at an amount that substantially represents the contractual par amount plus accrued (but unpaid) contractual interest (which may also include reasonable additional compensation for early termination) is treated as consistent with this criterion if the fair value of the prepayment feature is insignificant at initial recognition.

**Financial assets: Subsequent measurement and gains and losses**

**Financial assets at FVTPL:** These assets are subsequently measured at fair value. Net gains and losses, including any interest or dividend income, are recognised in profit or loss.

**Financial assets at amortised cost :** These assets are subsequently measured at amortised cost using the effective interest method. The amortised cost is reduced by impairment losses. Interest income, foreign exchange gains and losses and impairment are recognised in profit or loss. Any gain or loss on derecognition is recognised in profit or loss.

**Debt investments at FVOCI :** These assets are subsequently measured at fair value. Interest income under the effective interest method, foreign exchange gains and losses and impairment are recognised in profit or loss. Other net gains and losses are recognised in OCI. On derecognition, gains and losses accumulated in OCI are reclassified to profit or loss.

**Equity investments at FVOCI :** These assets are subsequently measured at fair value. Dividends are recognised as income in profit or loss unless the dividend clearly represents a recovery of part of the cost of the investment. Other net gains and losses are recognised in OCI and are not reclassified to profit or loss.

**Derecognition**

A financial asset (or, where applicable, a part of a financial asset or part of a Company of similar financial assets) is primarily derecognised (i.e., removed from the Company's balance sheet) when:

- i) The rights to receive cash flows from the asset have expired, or
- ii) The Company has transferred its rights to receive cash flows from the asset or has assumed an obligation to pay the received cash flows in full without material delay to a third party under a 'pass-through' arrangement; and either (a) the Company has transferred substantially all the risks and rewards of the asset, or (b) the Company has neither transferred nor retained substantially all the risks and rewards of the asset, but has transferred control of the asset.

**Financial liabilities:**

**Initial recognition and measurement**

Financial liabilities are classified, at initial recognition, as financial liabilities at fair value through profit or loss, loans and borrowings, payables, as appropriate.

All financial liabilities are recognised initially at fair value and, in the case of loans and borrowings and payables, net of directly attributable transaction costs. The Company's financial liabilities include trade and other payables, loans and borrowings including bank overdrafts.

**Subsequent measurement**

Financial liabilities are subsequently measured at amortised cost using the Effective Interest Rate method. Financial liabilities carried at fair value through profit or loss are measured at fair value with all changes in fair value recognised in the Statement of Profit and Loss.

CA

**Note 2: Significant Accounting Policies (continued)**

**(c) Financial instruments (continued)**

**Derecognition**

A financial liability is derecognised when the obligation under the liability is discharged or cancelled or expires. When an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as the derecognition of the original liability and the recognition of a new liability. The difference in the respective carrying amounts is recognised in the statement of profit and loss.

**Offsetting:**

Financial assets and financial liabilities are offset and the net amount presented in the balance sheet when, and only when, the Company currently has a legally enforceable right to set off the amounts and it intends either to settle them on a net basis or realise the asset and settle the liability simultaneously.

**(d) Revenue Recognition**

Ind AS 115 was issued on March 28, 2018 by Ministry of Corporate affairs and supersedes Ind AS 11 Construction Contracts and Ind AS 18 Revenue and it applies, with limited exceptions, to all revenue arising from contracts with its customers. Ind AS 115 establishes a five-step model to account for revenue arising from contracts with customers and requires that revenue be recognised at an amount that reflects the consideration to which an entity expects to be entitled in exchange for transferring goods or services to a customer.

The Company applied the modified retrospective method upon adoption of Ind AS 115 on January 1, 2019. This method requires the recognition of the cumulative effect of initially applying Ind AS 115 to retained earnings and not to restate prior years.

Overall, the application of this standard did not have a material impact on the Company's revenue streams from the sale of goods, service income, Rental income and associated rebates and sales returns provisions.

Revenue from contracts with customers is recognised when control of the goods or services are transferred to the customer at an amount that reflects the consideration to which the Company expects to be entitled in exchange for those goods or services. The Company has generally concluded that it is the principal in its revenue arrangements, because it typically controls the goods or services before transferring them to the customer.

Revenue from sale of goods is recognised at the point in time when control of the goods is transferred to the customer. The revenue is measured on the basis of the consideration defined in the contract with a customer, including variable consideration, such as discounts, volume rebates, or other contractual reductions.

Revenue from services rendered is recognised when the related services are performed in accordance with contract terms.

Rental income is recognised on a time-apportioned basis in accordance with the underlying substance of the relevant contract.

Revenues which arise from the Company's operating activities, principal or ancillary, but which are not arising from sale of products/services rendered are included as other operating revenues.

**(e) Other Income**

Interest income or expense is recognised using the effective interest method on time proportion method.

Dividend income is recognised when the Company's right to receive dividend is established, which is generally when shareholders approve the dividend.

**(f) Property, plant and equipment**

Property, plant and equipment are stated at cost/deemed cost less accumulated depreciation. Cost includes directly attributable costs to the acquisition of the items including its purchase price, import duties and non-refundable purchase taxes, after deducting trade discounts and rebates, any directly attributable cost of bringing the item to its working condition for its intended use and estimated costs of dismantling and removing the item and restoring the site on which it is located. Subsequent expenditure related to an item of tangible fixed asset is capitalised only if it increases the future benefits from the existing assets beyond its previously assessed standards of performance.

If significant parts of an item of property, plant and equipment have different useful lives, then they are accounted for as separate items (major components) of property, plant and equipment. Any gain or loss on disposal of an item of property, plant and equipment is recognised in profit or loss.

Advances paid towards acquisition of tangible fixed assets outstanding at each balance sheet date are shown under long-term loans and advances as capital advances.

6

**Note 2: Significant Accounting Policies (continued)**

**(f) Property, plant and equipment (continued)**

Depreciation on all the tangible fixed assets is provided based on the technical evaluation and assessment, the Company believes that the useful lives adopted by it best represent the period over which an asset is expected to be available for use. Accordingly, for these assets, the useful lives estimated by the Company are different from those prescribed in the Schedule.

Depreciation is calculated on a pro-rata basis from the date of installation till the date the assets are sold or disposed.

Gains and losses on disposal of tangible property, plant and equipment are determined as the difference between net sales proceeds and the carrying amount, and are presented in the Statement of Profit and Loss.

When significant parts of plant and equipment are required to be replaced at intervals, the Company depreciates them separately based on their specific useful lives. Likewise, when a major inspection is performed, its cost is recognised in the carrying amount of the plant and equipment as a replacement if the recognition criteria are satisfied. All other repair and maintenance costs are recognised in profit or loss as incurred.

The residual values, useful lives and methods of depreciation of property, plant and equipment are reviewed at each financial year end and adjusted prospectively, if appropriate.

Asset Description	Useful Life
Freehold Mining land	125 years
Buildings	3 to 77 years
Plant & Machinery	2 to 25 years
Furnitures & Fixtures	8 to 10 years
Vehicles	5 to 11 years
Office Equipments	3 to 5 years

**Provision for site restoration**

The Company provides for the estimated expenditure required to restore quarries and mines. The total estimate of restoration expenses is apportioned over the estimate of mineral reserves and a provision is made based on minerals extracted during the year.

Site restoration expenses is incurred on an on going basis and until the closure of the quarries and mines. The actual expenses may vary based on the nature of restoration and the estimate of restoration expenditure.

The total estimate of restoration expenses is reviewed periodically, on the basis of technical estimates.

**(g) Intangible Assets**

Intangible assets acquired separately are measured on initial recognition at cost. Following initial recognition, intangible assets are carried at cost less any accumulated amortisation and accumulated impairment losses.

The useful lives of intangible assets are assessed as finite. Intangible assets with finite lives are amortised over the useful economic life and assessed for impairment whenever there is an indication that the intangible asset may be impaired. The amortisation period and the amortisation method for an intangible asset with a finite useful life are reviewed at least at the end of each reporting period. Changes in the expected useful life or the expected pattern of consumption of future economic benefits embodied in the asset are considered to modify the amortisation period or method, as appropriate, and are treated as changes in accounting estimates. The amortisation expense on intangible assets with finite lives is recognised in the Statement of Profit and Loss unless such expenditure forms part of carrying value of another asset.

Gains or losses arising from derecognition of an intangible asset are measured as the difference between the net disposal proceeds and the carrying amount of the asset and are recognised in the statement of profit or loss when the asset is derecognised.

Asset Description	Useful Life
Software	3 years

*[Handwritten signature]*

**Note 2: Significant Accounting Policies (continued)**

**(h) Inventories**

Inventories are valued at lower of cost (including prime cost, excise duty and other overheads incurred in bringing the inventories to their present location and condition) and net realisable value. The comparison of cost and net realisable value is made on an item-by-item basis. Raw materials, packing materials and stores and spares are valued at cost computed on moving weighted average basis, after providing for obsolescence, if any. The cost includes purchase price, inward freight and other incidental expenses net of refundable duties, levies and taxes, where applicable. Raw materials, packing materials and other supplies held for use in production of inventories are not written down below cost except in cases where material prices have declined, and it is estimated that the cost of the finished products will exceed their net realisable value.

Finished goods and work in progress are valued at lower of cost and net realisable value. Cost is determined on a weighted average basis and comprises material, labour and applicable overhead expenses. The net realisable value of materials in process is determined with reference to the selling prices of related finished goods. Stores and spares are valued at cost determined on weighted average basis. Net realisable value is the estimated selling price in the ordinary course of business, less the estimated costs of completion and selling expenses.

Traded goods are valued at lower of weighted average cost and net realisable value. Goods in transit are valued at cost.

**(i) Impairment of non-financial assets**

The Company assesses, at each reporting date, whether there is an indication that an asset may be impaired. If any indication exists, or when annual impairment testing for an asset is required, the Company estimates the asset's recoverable amount.

For the purpose of impairment testing, assets are grouped together into the smallest group of assets (Cash Generating Unit or CGU) that generates cash inflows from continuing use that are largely independent of the cash inflows of other assets or CGUs. The recoverable amount of an asset or CGU is the greater of its value in use and its fair value less costs to sell. Value in use is based on the estimated future cash flows, discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the CGU (or the asset). Impairment loss recognised in respect of a CGU is allocated first to reduce the carrying amount of any goodwill allocated to the CGU, and then to reduce the carrying amounts of the other assets of the CGU (or group of CGUs) on a pro rata basis.

The Company's corporate assets (e.g., central office building for providing support to various CGUs) do not generate independent cash inflows. To determine impairment of a corporate asset, recoverable amount is determined for the CGUs to which the corporate asset belongs.

An impairment loss is recognised in the Statement of Profit and Loss in the respective financial years, if the carrying amount of the assets or CGU exceeds its recoverable amount.

If at the balance sheet date there is an indication that if a previously assessed impairment loss no longer exists, the recoverable amount is reassessed and the asset is reflected at the recoverable amount subject to a maximum of amortised historical cost as per requirement of Ind AS 36 "Impairment of Assets".

**(j) Impairment of financial assets**

The Company recognises loss allowances for expected credit losses on financial assets measured at amortised cost. At each reporting date, the Company assesses whether financial assets carried at amortised cost are credit impaired. A financial asset is 'credit-impaired' when one or more events that have a detrimental impact on the estimated future cash flows of the financial asset have occurred.

Evidence that a financial asset is credit-impaired includes the following observable data:

- significant financial difficulty of the borrower or issuer;
- a breach of contract such as a default or being past due over a reasonable period of credit
- the restructuring of a loan or advance by the Company on terms that the Company would not consider otherwise;
- it is probable that the borrower will enter bankruptcy or other financial reorganisation;

Loss allowances for trade receivables are always measured at an amount equal to lifetime expected credit losses. Lifetime expected credit losses are the expected credit losses that result from all possible default events over the expected life of a financial instrument. 12-month expected credit losses are the portion of expected credit losses that result from default events that are possible within 12 months after the reporting date (or a shorter period if the expected life of the instrument is less than 12 months).

**Note 2: Significant Accounting Policies (continued)**

**(j) Impairment of financial assets (continued)**

In all cases, the maximum period considered when estimating expected credit losses is the maximum contractual period over which the Company is exposed to credit risk. When determining whether the credit risk of a financial asset has increased significantly since initial recognition and when estimating expected credit losses, the Company considers reasonable and supportable information that is relevant and available without undue cost or effort. This includes both quantitative and qualitative information and analysis, based on the Company's historical experience and informed credit assessment and including forward-looking information.

The Company assumes that the credit risk on a financial asset has increased significantly if there is an indication that the financial asset is outstanding significantly beyond the usual credit period. The Company considers a financial asset to be in default when:

- the borrower is unlikely to pay its credit obligations to the Company in full, without recourse by the Company to actions such as realising security (if any is held); and - the financial asset is 180 days or more past due.

**Measurement of expected credit losses**

Expected credit losses are a probability-weighted estimate of credit losses. Credit losses are measured as the present value of all cash shortfalls (i.e. the difference between the cash flows due to the Company in accordance with the contract and the cash flows that the Company expects to receive). Presentation of allowance for expected credit losses in the balance sheet Loss allowances for financial assets measured at amortised cost are deducted from the gross carrying amount of the assets.

**(k) Foreign Currency Transactions and Balances**

Transactions in foreign currency are recorded at the exchange rates prevailing on the date of the transactions. Monetary assets and liabilities denominated in foreign currency are restated at the prevailing year end rates. The resultant gain/loss upon such restatement along with the gain/loss on account of foreign currency transactions are accounted in the Statement of Profit and Loss. In respect of items covered by forward exchange contracts, the premium or discount arising at the inception of such a forward exchange contract is amortised as expense or income over the life of the contract. Any profit or loss arising on cancellation or renewal of such a forward contract is recognised in the Statement of Profit and Loss.

**(l) Retirement and other employee benefits**

**Defined contribution plans**

The Company makes specified monthly contribution towards employee provident fund to Government administered provident fund scheme, which is a defined contribution scheme. The Company's contribution is recognized as an expense in the Statement of Profit and Loss during the period in which the employee renders the related service. The Company has no further obligations beyond its monthly contributions.

**Defined benefit plans**

For defined benefit plans, the cost of providing benefits is determined using the Projected Unit Credit method, with actuarial valuations being carried out at each balance sheet date. Remeasurements, comprising of actuarial gains and losses, the effect of the asset ceiling, excluding amounts included in net interest on the net defined benefit liability and the return on plan assets (excluding amounts included in net interest on the net defined benefit liability), are recognised immediately in the balance sheet with a corresponding debit or credit to retained earnings through OCI in the period in which they occur. Remeasurements are not reclassified to profit or loss in subsequent periods.

Past service costs are recognised in profit or loss on the earlier of:

- The date of the plan amendment or curtailment, and
- The date that the Company recognises related restructuring costs

Net interest is calculated by applying the discount rate to the net defined benefit liability or asset. The Company recognises the following changes in the net defined benefit obligation as an expense in the statement of profit and loss:

- Service costs comprising current service costs, past-service costs, gains and losses on curtailments and nonroutine settlements; and
- Net interest expense or income.

When the benefits of a plan are changed or curtailed, the resulting change in the benefit that relates to the past service ('past service cost' or 'past service gain') or the gain or loss on curtailment is recognised immediately in the Statement of profit or loss. The Company recognises the gains and losses on the settlement of a defined benefit plan when settlement occurs.

**Compensated Absence Policy :**

The employees of the Company are entitled to compensated absences. The employees can carry forward a portion of the unutilized accumulating compensated absences and utilize it in future periods or encash the leaves during the period of employment or retirement or at termination of employment. The Company records an obligation for compensated absences in the period in which the employee renders the services that increases this entitlement. The Company measures the expected cost of compensated absences as the additional amount that the Company expects to pay as a result of the unused entitlement that has accumulated at the end of the reporting period. The Company recognises accumulated compensated absences based on actuarial valuation using the projected unit credit method carried out in accordance with Ind AS-19 "Employee Benefits" at the end of the year. Non-accumulating compensated absences are recognised in the period in which the absences occur.

**Note 2: Significant Accounting Policies (continued)**

**Retirement and other employee benefits (continued)**

**Other long-term employee benefits**

The expected cost of accumulating compensated absences is determined by actuarial valuation performed by an independent actuary as at December 31st every year using projected unit credit method carried out in accordance with Ind AS-19 "Employee Benefits" at the end of the year, on the additional amount expected to be paid / availed as a result of the unused entitlement that has accumulated at the balance sheet date. Expense on non-accumulating compensated absences is recognised in the period in which the absences occur.

**Short-term employee benefits**

Employee benefits payable wholly within twelve months of receiving employee services are classified as short-term employee benefits. These benefits include salaries and wages, bonus and ex-gratia. The undiscounted amount of short-term employee benefits to be paid in exchange for employee services is recognised as an expense as the related service is rendered by employees.

**(m) Leases**

The determination of whether an arrangement is (or contains) a lease is based on the substance of the arrangement at the inception of the lease. The arrangement is, or contains, a lease if fulfilment of the arrangement is dependent on the use of a specific asset or assets and the arrangement conveys a right to use the asset or assets, even if that right is not explicitly specified in an arrangement.

Assets leased by the Company in its capacity as lessee where substantially all the risks and rewards of ownership vest in the Company are classified as finance leases. Such leases are capitalised at the inception of the lease at the lower of the fair value and the present value of the minimum lease payments and the corresponding rental obligations, net of finance charges, are included in borrowings or other financial liabilities as appropriate. Each lease rental paid is allocated between the liability and the interest cost so as to obtain a constant periodic rate of interest on the outstanding liability for each year.

Lease arrangements where the risks and rewards incidental to ownership of an asset substantially vest with the lessor are recognised as operating leases. Payments made under operating leases (net of any incentives received from the lessor) are charged to profit or loss on a straight-line basis over the period of the lease unless the payments are structured to increase in line with expected general inflation to compensate for the lessor's expected inflationary cost increases.

Minimum lease payments made under finance leases are apportioned between the finance charge and the reduction of the outstanding liability. The finance charge is allocated to each period during the lease term so as to produce a constant periodic rate of interest on the remaining balance of the liability.

**(n) Earnings Per Share**

The earnings considered in ascertaining the Company's Earnings Per Share (EPS) comprise net profit after tax (and includes the post tax effect of any extra ordinary items). The number of shares used in computing basic EPS is the weighted average number of shares outstanding during the year.

Dilutive potential equity shares are deemed to be converted as of the beginning of the year, unless they have been issued at a later date. The number of shares used for computing the diluted EPS is the weighted average number of shares outstanding during the year after considering the dilutive potential equity shares.

**(o) Tax expense**

Income tax comprises current and deferred tax. It is recognised in profit or loss except to the extent that it relates to a business combination or to an item recognised directly in equity or in other comprehensive income.

**Current income tax**

Current tax comprises the expected tax payable or receivable on the taxable income or loss for the year and any adjustment to the tax payable or receivable in respect of previous years. The amount of current tax reflects the best estimate of the tax amount expected to be paid or received after considering the uncertainty, if any, related to income taxes. It is measured using tax rates (and tax laws) enacted or substantively enacted by the reporting date.

Current tax assets and current tax liabilities are offset only if there is a legally enforceable right to set off the recognised amounts, and it is intended to realise the asset and settle the liability on a net basis or simultaneously.

Current income tax relating to items recognised outside profit or loss is recognised outside profit or loss (either in other comprehensive income or in equity). Current tax items are recognised in correlation to the underlying transaction either in OCI or directly in equity. Management periodically evaluates positions taken in the tax returns with respect to situations in which applicable tax regulations are subject to interpretation and establishes provisions where appropriate.

In case of tax payable as Minimum Alternative Tax ('MAT') under the provisions of the Income-tax Act, 1961, the credit available under the Act in respect of MAT paid is recognised as an asset only when and to the extent there is convincing evidence that the Company will pay normal income tax during the period for which the MAT credit can be carried forward for set-off against the normal tax liability. MAT credit recognised as an asset is reviewed at each balance sheet date and written down to the extent the aforesaid convincing evidence no longer exists.

6

**Note 2: Significant Accounting Policies (continued)**

**Tax expense (continued)**

**Deferred tax**

Deferred tax is recognised on temporary differences being the difference between the taxable income and accounting income that originate in one period and are capable of reversal in one or more subsequent periods subject to consideration of prudence. Deferred tax assets on unabsorbed depreciation and carry forward of losses are not recognised unless there is a virtual certainty that there will be sufficient future taxable income available to realise such assets. Deferred tax assets and liabilities have been measured using the tax rates and tax laws that have been enacted or substantially enacted by the Balance Sheet date.

Deferred tax is provided using the liability method on temporary differences between the tax bases of assets and liabilities and their carrying amounts for financial reporting purposes at the reporting date.

Deferred tax assets are recognised for all deductible temporary differences, the carry forward of unused tax credits and any unused tax losses. Deferred tax assets are recognised to the extent that it is probable that taxable profit will be available against which the deductible temporary differences, and the carry forward of unused tax credits and unused tax losses can be utilised, except when the deferred tax asset relating to the deductible temporary difference arises from the initial recognition of an asset or liability in a transaction that is not a business combination and, at the time of the transaction, affects neither the accounting profit nor taxable profit or loss.

The carrying amount of deferred tax assets is reviewed at each reporting date and reduced to the extent that it is no longer probable that sufficient taxable profit will be available to allow all or part of the deferred tax asset to be utilised. Unrecognised deferred tax assets are re-assessed at each reporting date and are recognised to the extent that it has become probable that future taxable profits will allow the deferred tax asset to be recovered.

Deferred tax assets and liabilities are measured at the tax rates that are expected to apply in the year when the asset is realised or the liability is settled, based on tax rates (and tax laws) that have been enacted or substantively enacted at the reporting date.

Deferred tax relating to items recognised outside profit or loss is recognised outside profit or loss (either in other comprehensive income or in equity). Deferred tax items are recognised in correlation to the underlying transaction either in OCI or directly in equity.

**(p) Statement of Cash Flows and Cash & cash equivalents**

Cash flows are reported using the indirect method, whereby net profit/ (loss) before tax is adjusted for the effects of transactions of a non-cash nature and any deferrals or accruals of past or future cash receipts or payments. The cash flows from operating, investing and financing activities of the Company are segregated.

For the purpose of the statement of cash flows, cash and cash equivalents consist of cash and short-term deposits, as defined above, net of outstanding bank overdrafts as they are considered an integral part of the Company's cash management.

Cash and cash equivalent in the balance sheet comprise cash at banks and on hand and short-term deposits with an original maturity of three months or less, that are readily convertible to known amounts of cash and which are subject to an insignificant risk of changes in value.

**(q) Provisions and Contingencies**

A provision is recognised when the Company has a present legal or constructive obligation as a result of past events and it is probable that an outflow of resources will be required to settle the obligation in respect of which a reliable estimate can be made. Provisions are measured at the present value of management's best estimate of the expenditure required to settle the present obligation at the end of the reporting period. These are reviewed at each Balance Sheet date and adjusted to reflect the current best estimates. If the effect of the time value of money is material, provisions are discounted using a current pre-tax rate that reflects, when appropriate, the risks specific to the liability. When discounting is used, the increase in the provision due to the passage of time is recognised as a finance cost.

Provisions for onerous contracts, i.e. contracts where the expected unavoidable costs of meeting the obligations under the contract exceed the economic benefits expected to be received under it, are recognised when it is probable that an outflow of resources embodying economic benefits will be required to settle a present obligation as a result of an obligating event based on a reliable estimate of such obligation.

Where there are a number of similar obligations, the likelihood that an outflow will be required in settlement is determined by considering the class of obligations as a whole. A provision is recognised even if the likelihood of an outflow with respect to any one item included in the same class of obligations may be small.

Where the Company expects a provision to be reimbursed, for example under an insurance contract, the reimbursement is recognised as a separate asset but only when the reimbursement is virtually certain.

Contingent liabilities are disclosed in the notes to the financial statements. A contingent liability recognised in a business combination is initially measured at its fair value. Subsequently, it is measured at the higher of the amount that would be recognised in accordance with the requirements for provisions above or the amount initially recognised less, when appropriate, cumulative amortisation recognised in accordance with the requirements for revenue recognition.

**Note 2: Significant Accounting Policies (continued)**

**(r) Dividend declared**

The Company recognises a liability to make cash distributions to equity holders of the parent when the distribution is authorised and the distribution is no longer at the discretion of the Company. As per the corporate laws in India, a distribution is authorised when it is approved by the shareholders. A corresponding amount is recognised directly in equity. Interim dividends are recorded as a liability on the date of declaration by the Board of directors of the Company.

**(s) Derivative Financial Instruments and Hedge Accounting**

*Initial recognition and subsequent measurement*

The Company uses derivative financial instruments, such as forward currency contracts, interest rate swaps and forward commodity contracts, to hedge its foreign currency risks, interest rate risks and commodity price risks, respectively. Such derivative financial instruments are initially recognised at fair value on the date on which a derivative contract is entered into and are subsequently re-measured at fair value. Derivatives are carried as financial assets when the fair value is positive and as financial liabilities when the fair value is negative.

Any gains or losses arising from changes in the fair value of derivatives are taken directly to statement of profit and loss, except for the effective portion of cash flow hedges, which is recognised in OCI and later reclassified to statement of profit and loss when the hedge item affects statement of profit and loss or treated as basis adjustment if a hedged forecast transaction subsequently results in the recognition of a non-financial asset or non-financial liability.

For the purpose of hedge accounting, hedges are classified as:

- Fair value hedges when hedging the exposure to changes in the fair value of a recognised asset or liability or an unrecognised firm commitment;
- Cash flow hedges when hedging the exposure to variability in cash flows that is either attributable to a particular risk associated with a recognised asset or liability or a highly probable forecast transaction or the foreign currency risk in an unrecognised firm commitment;
- Hedges of a net investment in a foreign operation.

At the inception of a hedge relationship, the Company formally designates and documents the hedge relationship to which the Company wishes to apply hedge accounting and the risk management objective and strategy for undertaking the hedge. The documentation includes the Company's risk management objective and strategy for undertaking hedge, the hedging/ economic relationship, the hedged item or transaction, the nature of the risk being hedged, hedge ratio and how the entity will assess the effectiveness of changes in the hedging instrument's fair value in offsetting the exposure to changes in the hedged item's fair value or cash flows attributable to the hedged risk. Such hedges are expected to be highly effective in achieving offsetting changes in fair value or cash flows and are assessed on an ongoing basis to determine that they actually have been highly effective throughout the financial reporting periods for which they were designated.

**Cash flow hedge**

When a derivative is designated as a cash flow hedging instrument, the effective portion of changes in the fair value of the derivative is recognised in OCI and accumulated in the other equity under 'effective portion of cash flow hedges'. The effective portion of changes in the fair value of the derivative that is recognised in OCI is limited to the cumulative change in fair value of the hedged item, determined on a present value basis, from inception of the hedge. Any ineffective portion of changes in the fair value of the derivative is recognised immediately in statement of profit and loss.

The Company designates only the change in fair value of the spot element of forward exchange contracts as the hedging instrument in cash flow hedging relationships. The change in fair value of the forward element of forward exchange contracts ('forward points') is separately accounted for as a cost of hedging and recognised separately within equity.

**(t) Standards issued but not yet effective**

**• Ind AS 116- Leases**

In March 2019, MCA issued Ind AS 116 – Leases which sets out the principles for the recognition, measurement, presentation and disclosure of leases for both parties to a contract and replaces the previous standard on leasing, Ind AS 17 -Leases. Ind AS 116, which is not applicable to service contracts, but only applicable to leases or lease components of a contract, defines a lease as a contract that conveys to the customer (lessee) the right to use an asset for a period of time in exchange for consideration. Ind AS 116 eliminates the classification of leases for the lessee as either operating leases or finance leases as required by Ind AS 17 and instead, introduces a single lessee accounting model whereby a lessee is required to recognise assets and liabilities for all leases with a term that is greater than 12 months, unless the underlying asset is of low value, and to recognise depreciation of leased assets separately from interest on lease liabilities in the statement of Profit and Loss.

As Ind AS 116 substantially carries forward the lessor accounting requirements in Ind AS 17, a lessor will continue to classify its leases as operating leases or finance leases and to account for those two types of leases differently.

The Company will be adopting Ind AS 116 with effect from January 01, 2020, using the modified retrospective approach. Therefore, it shall recognise a lease liability at the date of initial application at the present value of the remaining lease payments, discounted using the lessee's incremental borrowing rate at the date of initial application and recognise a right-of-use asset at an amount equal to the lease liability, adjusted by the amount of any prepaid or accrued lease payments relating to that lease recognised in the balance sheet immediately before the date of initial application.

**Note 2: Significant Accounting Policies (continued)**

**(t) Standards issued but not yet effective (continued)**

Figures for comparative periods will not be restated. The nature of expenses related to those leases will change from lease rent in previous periods to (a) amortization for the right-to-use asset, and (b) interest accrued on lease liability.

The Company will use the exemption option available for existing leases and apply the available exemptions regarding the recognition of short-term leases and low value leasing assets. Basis assessment, the Company arrangements under operating leases, which are currently off Balance sheet, will be recorded as right to use assets and the future obligations in respect of such leases will be recorded as a liability in the Balance sheet as at January 1, 2020.

The Company will use following practical expedients of Ind AS 116 at the date of initial application:

- 1) With leases previously classified as operating leases according to Ind AS 17, the lease liability will be measured at the present value of the outstanding lease payments, discounted by the incremental borrowing rate at January 1, 2020. The respective right-of-use asset is generally recognised at an amount equal to the lease liability;
- 2) An impairment review is not performed for right of use assets. Instead, right-of-use asset is adjusted by the amount of any provision for onerous leases recognised in the Balance sheet;
- 3) Regardless of their original lease term, leases for which the lease term ends latest on December 31, 2020, are recognised as short-term leases;
- 4) At the date of initial application, the measurement of a right-to-use asset excludes the initial direct costs; and
- 5) Hindsight is considered when determining the lease term if the contract contains options to extend or terminate the leases.

**• Following amendments to certain standards will be effective from financial year beginning April 1, 2019, hence applicable to the Company from January 1, 2020**

**a) Deferred taxes on Dividends**

An entity is required to create a corresponding liability for payment of Dividend Distribution Tax (DDT) when it recognises a liability to pay a dividend. The liability for DDT shall be recorded in statement of Profit and Loss, other comprehensive income or equity, as the case may be. Currently, the Company is recognising dividend distribution tax on dividends paid to shareholders in the statement of changes in equity.

**b) Uncertain tax treatment**

Another amendment relates to tax consequence of an item whose tax treatment is uncertain. Tax treatment of an item is considered as uncertain when there is uncertainty whether the relevant taxation authority will accept the tax treatment of that item or not. For example, if an entity has not included a particular income in taxable profit, it will be considered as uncertain tax treatment if its acceptability by taxation authority is uncertain. The amendment has been brought by introducing a new Appendix C to Ind AS 12.

If there is uncertainty over tax treatment of an item:

(i) An entity should determine an approach or method that predicts the resolution of the uncertainty. Based on the approach, the entity shall determine whether to consider each uncertain tax treatment separately or together with one or more other uncertain tax treatments.

(ii) It shall assess whether it is probable that the taxation authority will accept the uncertain tax treatment, if the authority has full right to examine the treatment and has full knowledge of all related information.

(iii) If it is probable that the taxation authority will accept the tax treatment, there will be no impact on the amount of taxable profits/losses, tax bases, unused tax losses/credits and tax rates. In vice-versa case, the entity shall show the effect of the uncertainty for each uncertain tax treatment on amount of related aforesaid items by using either the most likely outcome or the expected outcome of the uncertainty.

**c) Ind AS 19, Employee Benefits**

When a change to a plan by way of either an amendment, curtailment or settlement takes place, Ind AS 19 requires a company to remeasure its net defined benefit liability or asset. The amendments to Ind AS 19 require a company to use the updated assumptions from this remeasurement to determine current service cost and net interest for the remainder of the reporting period after the change to the plan. Until now, Ind AS 19 did not specify how to determine these expenses for the period after the change to the plan

The Company is evaluating impact of above amendments issued by MCA to existing accounting standards.

**(ii) Rights, preferences and restrictions attached to the equity shares**

The Company has only one class of equity shares having a par value of Rs. 10 each per share. Each holder of equity shares is entitled to one vote per share. In case of interim dividend the profits are distributed based on approval of Board of Directors. In the event of liquidation of the Company, the holders of equity shares will be entitled to receive remaining assets of the Company, after distribution of all preferential amounts. The distribution will be in proportion to number of equity shares held by the shareholders.

During the current financial year, dividend @ INR 7.50 per share has been declared and paid.

The Board of Directors of the Company at their meeting held on November 11, 2019, have declared an interim dividend of INR 7.50/- per equity share i.e. 75% on face value of INR 10/- per Equity Share fully paid up (INR 269.49 million including tax on Dividend for the financial year ending December 31, 2019).

<b>( e ) Cash Flow Hedge Reserve</b>	0.78	-
<b>Total</b>	<b>4,529.24</b>	<b>3,829.03</b>

**Nature of Reserves****a) Security premium :**

The amount received in excess of face value of the equity shares is recognised in Securities premium. It will be utilised in accordance with the provisions of the Act, to issue bonus shares, to provide for premium on redemption of shares or debentures, write-off equity related expenses like underwriting costs etc.

**b) General reserve :**

General reserve is used from time to time to transfer profits from retained earnings for appropriation purposes. There is no policy of regular transfer. As the general reserve is created by a transfer from one component of equity to another and is not an item of other comprehensive income, items included in the general reserve will not be reclassified subsequently to retained earnings.

**(c) Retained earnings :**

Retained earnings mainly represent all current and prior year profits as disclosed in the statement of profit or loss and other comprehensive income less dividend distribution and transfers to general reserve.

**(d) Remeasurement of defined benefit liability**

Comprises of actuarial gains/losses and return on plan assets excluding net interest income/ (expense).

**Rain Cements Limited****Notes forming part of the Financial Statements (continued)**

Note: Contingent liability represents loan amount outstanding.

a) The immovable assets and movable assets of the Company, all current assets of the Company are charged against loan availed by Rain Industries Limited for purpose of investment in Rain Commodities USA Inc.

The Company has a process whereby periodically all long-term contracts are assessed for material foreseeable losses. At the year end, the Company has reviewed and ensured that there are no material foreseeable losses on such long term contracts which needs to be provided for in the books of account other than the provisions already made in books of account.

The Company has reviewed all its pending litigations including legal proceedings initiated in the ordinary course of business. The Company does not expect the outcome of these proceedings to have a material and adverse effect on its financial position, except as disclosed above and accordingly no adjustment in respect thereof is expected.

**Note 37: Operating leases**

The company has entered into various cancellable operating lease agreements for storage facilities. The lease rentals amounting to INR 50.99 (December 31, 2018 - INR 49.89) paid under such agreements have been charged off in the statement of profit and loss.

## Note 41: Employee Benefits

## a) Defined contribution plans:

The company deposits an amount determined at a fixed percentage of basic pay every month to the state administered Provident fund, Employee State Insurance (ESI) for the benefit of employees. The contributions payable to these plans by the company are at the rates specified in the rules of the schemes.

Amount recognised in the statement of profit and loss is as follows:

Particulars	For the Year ended December 31, 2019	For the Year ended December 31, 2018
Provident fund paid to the authorities	25.05	23.51
Employee state insurance paid to the authorities	1.48	1.99
Contribution to other funds (Employee welfare etc.)	0.36	0.37
<b>Total</b>	<b>26.89</b>	<b>25.87</b>

## b) Defined benefit plans -Gratuity

The Company has a defined benefit gratuity plan in India, government by the Payment of Gratuity Act, 1972. Entitles an employee, who has rendered at least five years of continuous service, to gratuity at the rate of fifteen days wages for every completed year of service or part thereof in excess of six months, based on the rate of wages last drawn by the employee concerned.

The actuarial valuation of the present value of the defined benefit obligation has been carried out as at balance sheet date. The following table sets forth the status of the various defined benefit plans of the company and the amounts recognised in the Balance Sheet and Statement of Profit and Loss.

Amounts recognized in the Balance Sheet are as follows:

Particulars	As at December 31, 2019	As at December 31, 2018
Present value of funded obligation	127.16	101.84
Less: Fair value of plan assets	(20.40)	(21.68)
<b>Net liability</b>	<b>106.76</b>	<b>80.16</b>

Amount recognised in Statement of Profit and Loss (recognised in employee benefits expense):

Particulars	For the Year ended December 31, 2019	For the Year ended December 31, 2018
Current service cost	6.67	5.72
Past service cost	-	6.61
Interest cost	5.75	4.38
<b>Total</b>	<b>12.42</b>	<b>16.71</b>

Amount recognised in other comprehensive income:

Particulars	For the Year ended December 31, 2019	For the Year ended December 31, 2018
<b>Actuarial loss/(gain) on remeasurement of defined benefit obligation:</b>		
Actuarial (gain)/ loss arising from change in financial assumptions	14.03	-
Actuarial (gain)/ loss arising from change in demographic assumption	1.49	
Actuarial (gain)/ loss arising on account of experience changes	5.90	7.17
<b>Actuarial gain/(loss) on remeasurement of planned asset:</b>		
Actual return on plan assets less interest on plan assets	(0.84)	(0.09)
<b>Total gain/(loss)</b>	<b>20.58</b>	<b>7.08</b>

Reconciliation of opening and closing balances of the present value of the obligations:

Particulars	As at December 31, 2019	As at December 31, 2018
Opening defined benefit obligation	101.84	84.15
Current service cost	6.67	5.72
Past service cost	-	6.61
Interest Cost	6.64	5.88
Actuarial loss/(gain)	21.42	7.16
Amount paid to employees	(9.41)	(7.68)
<b>Closing defined benefit obligation</b>	<b>127.16</b>	<b>101.84</b>

Reconciliation of opening and closing balances of the fair value of plan assets:

Particulars	As at December 31, 2019	As at December 31, 2018
Opening fair value of plan assets	21.68	22.11
Expected return on plan assets	0.89	1.50
Contribution by employer	6.40	5.66
Actual return on plan assets	0.84	0.09
Amount paid to employees	(9.41)	(7.68)
<b>Closing fair value of plan assets</b>	<b>20.40</b>	<b>21.68</b>

41 Employee Benefit (Continued)

The details of investments in plan assets are as follows:

Particulars	As at December 31, 2019	As at December 31, 2018
Life Insurance Corporation of India	100%	100%

Principal Actuarial assumptions used:

Particulars	As at December 31, 2019	As at December 31, 2018
Discount rates on benefit obligations	6.60%	7.55%
Expected salary increase rates	7.50%	6.00%

Sensitivity analysis:

Reasonably possible changes at the reporting date to one of the relevant actuarial assumptions, holding other assumptions constant, would have affected the defined benefit obligation by the amounts for the year ended December 31, 2019 shown below:

Particulars	Increase (%)	Decrease (%)
Discount rate (50 bps on DBO)	(2.52)	2.67
Future salary growth (50 bps on DBO)	2.54	(2.43)

Reasonably possible changes at the reporting date to one of the relevant actuarial assumptions, holding other assumptions constant, would have affected the defined benefit obligation by the amounts for the year ended December 31, 2018 shown below:

Particulars	Increase (%)	Decrease (%)
Discount rate (50 bps on DBO)	(2.71)	2.87
Future salary growth (50 bps on DBO)	2.85	(2.71)

Although the analysis does not take into account of the full distribution of cash flows expected under the plan, it does provide an approximation of the sensitivity of the assumptions shown.

The estimates of future salary increase considered in the actuarial valuation takes into account factors like inflation, seniority, promotion and other relevant factors such as supply and demand in the employment market. The expected return on plan assets is based on actuarial expectation of the average long term rate of return expected on investments of the Funds during the estimated term of the obligations. The principal actuarial assumptions used for the computation of defined plan are also used for the computation of compensated absences of long term benefit.

The expected contribution payable to the plan next year is INR 8.00

Maturity profile of defined benefit obligation

Particulars	Amount
1st Following year	33.30
2nd Following year	15.83
3rd Following year	14.08
4th Following year	9.97
5th Following year	14.34
Thereafter	106.85

As at December 31, 2019 the weighted average duration of the defined benefit obligation is 5.19 years.

c) Compensated absences

The company provides for accumulation of compensated absences by certain categories of its employees. These employees can carry forward a portion of the unutilized compensated absences and utilize it in future periods or receive cash in lieu thereof as per company policy. The Group records an obligation for compensated absences in the period in which the employee renders the services that increases this entitlement.

The following table sets forth the status of the compensated absences:

Particulars	As at December 31, 2019	As at December 31, 2018
Net Liability :		
- Current	10.84	9.52
- Non Current	30.92	26.57
	41.76	36.09

**Terms and conditions of transactions with related parties:**

All transactions with these related parties are priced on an arm's length basis and resulting outstanding balances are to be settled in case within 60 days of the reporting date. None of the balance is secured.

**Note 43: Capital Management**

For the purpose of the Company's capital management, capital includes issued equity capital, share premium and all other equity reserves attributable to the equity holders of the Company. The primary objective of the Company's capital management is to maximize the shareholder value.

The Company's policy is to maintain a strong capital base so as to maintain investor, creditor and market confidence and to sustain future development of the business. Management monitors the return on capital, as well as the level of dividends to equity shareholders. The Board of Directors seeks to maintain a balance between the higher returns that might be possible with higher levels of borrowing and the advantages and security afforded by a sound capital position. The Company monitors capital using a ratio of 'Net debt' to 'equity'. For this purpose, adjusted net debt is defined as total interest-bearing loans and borrowings less cash and cash equivalents. The Company's Net debt to equity ratio is as follows.

Particulars	As at	
	December 31, 2019	December 31, 2018
Total borrowings, net of cash and cash equivalents	550.65	634.46
Total equity attributable to the equity shareholders of the company	4,827.29	4,127.08
<b>Net debt to equity ratio</b>	<b>0.11</b>	<b>0.15</b>

In order to achieve this overall objective, the Company's capital management, amongst other things, aims to ensure that it meets financial covenants attached to the interest-bearing loans and borrowings that define capital structure requirements. Breaches in meeting the financial covenants would permit the bank to immediately call loans and borrowings. There have been no breaches in the financial covenants of any interest-bearing loans and borrowing in the current period.

### Note:

The carrying amounts of current investments, trade receivables, loan receivable, security deposits, cash and cash equivalents, bank balances, trade payables, borrowings and other financial assets and liabilities are considered to be the same as their face values.

### Measurement of fair values:

Fair values are categorized into different levels in a fair value hierarchy based on the inputs used in the valuation techniques as follows:

**Level 1:** quoted prices (unadjusted) in active markets for identical assets or liabilities. The mutual funds are valued using the closing NAV.

**Level 2:** inputs other than quoted prices included in Level 1 that are observable for the asset or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices).

**Level 3:** inputs for the asset or liability that are not based on observable market data (unobservable inputs).

**Rain Cements Limited****Notes forming part of the Financial Statements (continued)**

All amounts are in Indian Rupees Millions, except share data and where otherwise stated

**Note 45: Financial Risk Management**

The Company has put in place risk management systems as applicable to the respective operations. The following explains the objective and processes of the Company. The Company has a system based approach to risk management, anchored to policies and procedures and internal financial controls aimed at ensuring early identification, evaluation and management of key financial risks (such as market risk, credit risk and liquidity risk) that may arise as a consequence of its business operations as well as its investing and financing activities. Accordingly, the Company's risk management framework has the objective of ensuring that such risks are managed within acceptable and approved risk parameters in a disciplined and consistent manner and in compliance with applicable regulation. It also seeks to drive accountability in this regard.

**The Company has exposure to the following risks arising from financial instruments:**

- Credit risk
- Liquidity risk
- Market risk

**Credit risk:**

Credit risk is the risk of financial loss arising from counter-party failure to repay or service debt according to the contractual terms or obligations. Credit risk encompasses both the direct risk of default and the risk of deterioration of creditworthiness as well as concentration risks and arises primarily from trade receivables, investments, cash and cash equivalents and balances with banks. The maximum exposure to credit risk is equal to the carrying value of these financial assets.

The objective of managing counterparty credit risk is to prevent losses in financial assets. The Company assesses the credit quality of the counterparties, taking into account their financial position, past experience and other factors. The Company has a policy of dealing only with credit worthy counter parties and obtaining sufficient collateral, where appropriate as a means of mitigating the risk of financial loss from defaults.

**Trade receivables**

The Company's exposure to credit risk is influenced mainly by the individual characteristics of each customer. The demographics of the customer, including the default risk of the industry and country in which the customer operates, also has an influence on credit risk assessment. Credit risk is managed through credit approvals, establishing credit limits and continuously monitoring the creditworthiness of customers to which the Company grants credit terms in the normal course of business. The Company limits its exposure to credit risk arising from trade receivable by establishing a maximum credit period of 21 days. Moreover, the receivables balance is backed by an appropriate amount of deposit collected from each customers and the Company transfers some portion of the discount to the security deposit of the customer which will be paid at the time of termination of the contract or discontinuance of business. The default in collection as a percentage of total receivable is very low.

**The age wise break up of trade receivables, net of allowances is given below:**

Particulars	As at December 31, 2019	As at December 31, 2018
Receivables that are neither past due nor impaired	142.51	80.97
Receivables that are past due but not impaired:		
Past due 0-30 days	7.54	12.79
Past due 31-60 days	11.58	26.09
Past due 61-90 days	7.10	10.29
Past due over 90 days	96.60	85.17
	<b>122.83</b>	<b>134.34</b>
<b>Gross receivables</b>	<b>265.34</b>	<b>215.31</b>
<b>Less : Credit notes for discounts</b>	<b>(72.17)</b>	<b>(44.54)</b>
	<b>193.17</b>	<b>170.77</b>
<b>Credit impaired</b>		
Loss allowance	(21.81)	(21.64)
<b>Net receivables before credit notes</b>	<b>171.36</b>	<b>149.13</b>

No single customer accounted for more than 10% of the trade receivable as of December 31, 2019 and December 31, 2018. There is no significant concentration of credit risk.

**Investments**

The Company limits its exposure to credit risk by generally investing in subsidiaries and liquid securities. The Company does not expect any losses from non-performance by these counter-parties, and does not have any significant concentration of exposures to specific industry sectors or specific country risks.

**Cash and cash equivalents (including bank balances, fixed deposits and margin money with banks):**

Credit risk on cash and cash equivalent is limited as the Company generally transacts with banks with high credit ratings assigned by international and domestic credit rating agencies.

# Rain Cements Limited

## Notes forming part of the Financial Statements (continued)

All amounts are in Indian Rupees Millions, except share data and where otherwise stated

### Note 45: Financial Risk Management (continued)

#### Liquidity risk:

Liquidity risk is the risk that the Company will not be able to meet its financial obligations as they become due. The Company manages its liquidity risk by ensuring, as far as possible, that it will always have sufficient liquidity to meet its liabilities when due, under both normal and stressed conditions, without incurring unacceptable losses or risk to the Company's reputation. The Company's treasury department is responsible for liquidity and funding as well as settlement management. In addition, processes and policies related to such risks are overseen by senior management. Management monitors the Company's net liquidity position through rolling forecasts on the basis of expected cash flows.

The Company aims to maintain the level of its cash and cash equivalents and other highly marketable debt investments at an amount in excess of expected cash outflows on financial liabilities (other than trade payables). The Company also monitors the level of expected cash inflows on trade receivables and loans together with expected cash outflows on trade payables and other financial liabilities.

The table below provides details regarding the remaining contractual maturities of significant financial liabilities at the reporting date. The amounts are gross and undiscounted, and include contractual interest payment and excludes impact of netting arrangements (if any):

#### As at December 31, 2019

Particulars	Carrying value	Contractual cash flows			
		Less than 1 year	1-2 years	2-5 years	5-10 years
<b>Financial liabilities</b>					
Borrowings (including current maturities)	876.21	364.63	83.12	341.27	87.19
Trade payables	637.92	637.92	-	-	-
Other financial liabilities (excluding current maturities of long-term borrowings)	693.03	693.03	-	-	-
<b>Total</b>	<b>2,207.16</b>	<b>1,695.58</b>	<b>83.12</b>	<b>341.27</b>	<b>87.19</b>
					<b>2,207.16</b>

					<b>2,019.16</b>

**Rain Cements Limited**

**Notes forming part of the Financial Statements (continued)**

All amounts are in Indian Rupees Millions, except share data and where otherwise stated

**Note 45: Financial Risk Management (continued)**

**Market risk:**

Market risk is the risk that changes in market prices - such as foreign exchange rates and interest rates - will affect the Company's income or the value of its holdings of financial instruments. The objective of market risk management is to manage and control market risk exposures within acceptable parameters, while optimizing the return.

**Currency risk**

The Company is exposed to currency risk to the extent that there is a mismatch between the currencies in which sales, purchases and borrowings are denominated and the respective functional currencies of individual entities in the Company.

The following table analyses foreign currency risk from non derivative financial instruments:

Particulars	Amount in USD		Amount in EURO	
	December 31, 2019	December 31, 2018	December 31, 2019	December 31, 2018
<b>Assets:</b>

### Note 45: Financial Risk Management (continued)

#### Interest rate risk

Interest rate risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of change in market interest rates. The Company adopts a policy of ensuring an optimal mix of its interest rate risk exposure.

#### Exposure to interest rate risk

The interest rate profile of the Company's interest-bearing financial instruments as reported to management is as follows:

Particulars	Interest rate exposure as at	
	December 31, 2019	December 31, 2018
<b>Fixed rate instruments</b>		
Financial assets	794.91	888.62
Financial liabilities	-	-
	<b>794.91</b>	<b>888.62</b>
<b>Variable rate instruments</b>		
Financial assets	-	-
Financial liabilities	266.27	-
	<b>266.27</b>	<b>-</b>

#### Interest rate Sensitivity:

**Impact on Profit and loss due to net interest expense for the year on 1% change in interest rate:** A reasonably possible change of 1% in interest rates at the reporting date would have increased / (decreased) profit and loss by the amounts shown below. This analysis assumes that all other variables, in particular foreign currency exchange rates, remain constant.

Particulars	December 31, 2019		December 31, 2018	
	Increase in rate	Decrease in rate	Increase in rate	Decrease in rate
<b>Impact on profit and loss</b>				
Variable-rate instruments	2.66	(2.66)	-	-
<b>Total Impact</b>	<b>2.66</b>	<b>(2.66)</b>	<b>-</b>	<b>-</b>

**Note 46: Segment Reporting**

Ind AS 108 "Operating segment" establishes standard for the way public business report information about operating segment and related disclosures about product and services, geographic areas and major customers. Based on "management approach" as defined in Ind AS 108, operating segments are to be reported in a manner consistent with internal reporting provided to the Chief Operating Decision Maker (CODM). The CODM evaluates the company's performance and allocates resources on an overall basis. The Company's sole reportable segment is manufacture and sale of Cement. Further, the business operations of the Company are primarily concentrated in India, and hence, the Company is considered to operate only in one geographical segment. Accordingly, there are no disclosures to be provided under Ind AS 108.
